

## Timer

### The Timer App

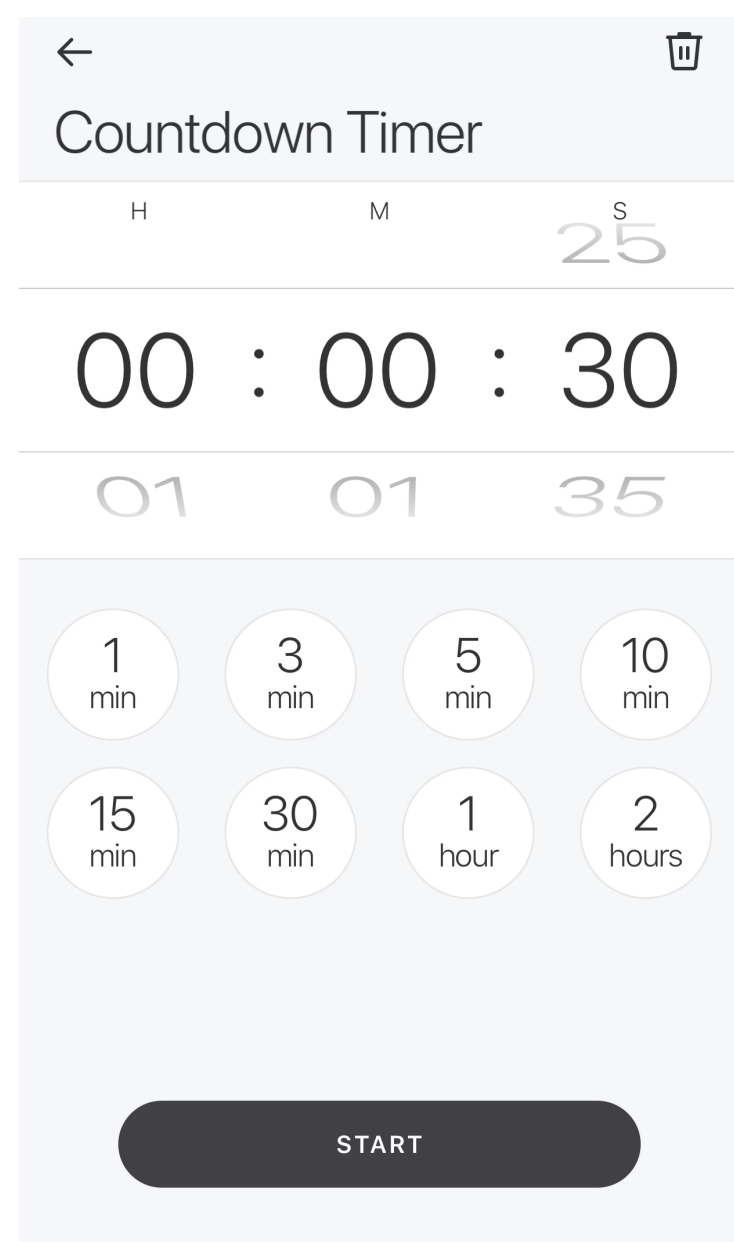

Glance Clock - Cooking with Timer

Watch later Share

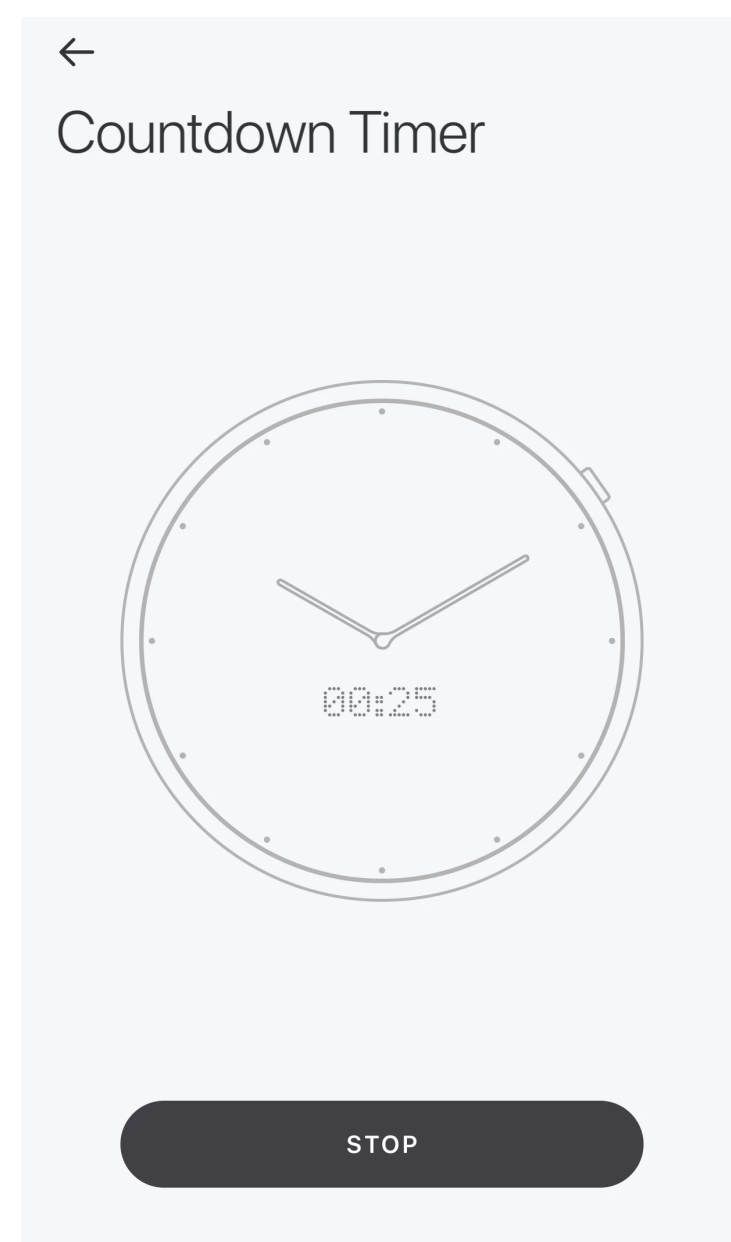

Glance clock can help you to keep track of time. If you are cooking something or doing your training routine, The Timer app will help you set a countdown timer.

If you are an advanced user of timers, check out our Interval Timer app. The Interval Timer app supports Pomodoro and Tabata timers.

Set timer or choose one of the preset options

The app will show the countdown process.

The Timer app has the following pre-set timers for 1, 3, 5, 10, 15, 60 minutes and 1 and 2 hours. You can also set a custom timer in the app by choosing hours, minutes and seconds.

Once the timer has started, your Glance clock will display the countdown process which will be shown in the app at the same time.

When the timer is over, Glance clock will make sound with animation and text "DONE".
